

CANADIAN JOURNAL OF GREEN BUILDING & DESIGN

Canadian Journal of Green Building & Design

An information source for Canada's Sustainable Building Professionals

"LEED", "green" and "sustainable"

These are more than just buzzwords; they are the direction in which Canada's green building industry is moving. More than 10,000 individuals have become LEED Accredited Professionals in Canada and that number is increasing rapidly as the demand for green projects explodes.

Newsstand-Quality Design & Must-Read Content

Canadian Journal of Green Building & Design will continue to shine a light on Canada's green building industry, from profiles of builders, products and projects, to highlighting green building initiatives and the work that organizations like the Canada Green Building Council are doing. Editorial content consists of high quality material provided by industry insiders and sustainable building leaders.

20,000 Print (on FSC stock) & 20,000 electronic copies nationally distributed to leaders in Canada's Green Building Industry.

Canadian Journal of Green Building & Design has become a vital information source on the country's green building scene, educating the decision makers and bringing green building news directly to industry stakeholders. Focusing on the sustainable building industry as a whole, the magazine is mailed directly to Canadians from all sectors involved in the industry which includes architects and engineers, general, and mechanical contractors, home builders and renovators, building owners and facility managers, interior designers and decorators, real estate professionals, as well as to Canadian municipalities, and government officials of related Federal and Provincial Agencies.

"Canadian Journal of Green Building & Design" a magazine who's time has come.

Today's green building trend will be tomorrow's common practice. Position your company's products or services at the forefront of this movement by showcasing them in the Canadian Journal of Green Building & Design.

Testimonials

Upon returning from an exciting week at GreenBuild 2010, I discovered that a friend had passed along a copy of the Canadian Journal of Green Building and Design magazine. I am sending this email to request that I please be added to your distribution list.

Your publication is excellent! Keep up the good work.

Michael Calvert

Global Practice Lead, Green Building
Global Business Opportunities Bureau
Foreign Affairs and International Trade Canada
Government of Canada

I received my copy of Canadian Journal of Green Building & Design and enjoyed it very much. I look forward to the online content.

Michael Wymant, LEED AP®

Director of Sustainability, BLJC, Markham, Ontario

Thank you for sending me the premier issue of the new magazine. It is absolutely great with good articles. I like the section with the list of newly certified buildings.

The advertising is also good, very pertinent to green building.

Keep up the good work and I am looking forward to seeing the next issue"

Claude Mongrain P.Eng.

I just received the latest copy of The Canadian Journal of Green Building and Design and I wanted to congratulate all those involved in putting together this magazine. I find it very well done and the articles of great interest for someone like me who has a very keen interest in anything to do with sustainable development and green building design. It is a very good source of information on what is going on in these fields and is even motivating and encouraging when we read about all that is happening.

Keep up the good work and thanks to all for your good efforts and a job well done.

Canadian Journal of Green Building & Design magazine is supported by:

August 2009

The Canada Green Building Council (CaGBC) is pleased to announce a new partnership with Market Zone Productions Ltd. of Winnipeg, publishers of the Canadian Journal of Green Building and Design (formerly Green Builder Canada magazine). The magazine will be distributed 5 times a year and will continue to focus on green building issues, products and industry trends.

The partnership with Market Zone Productions will provide another forum for CaGBC to promote its mission to “lead and accelerate the transformation to high-performing, healthy green buildings, homes and communities throughout Canada”.

Market Zone Productions is committed to producing a high quality publication which will provide timely information to the fast changing green building industry.

We hope you find the publication informative in your green building initiatives.

Sincerely,

Ron Lemaire
VP, Market Development

CANADIAN JOURNAL OF GREEN BUILDING & DESIGN

Technical Specifications

Magazine Specifications

Canadian Journal of Green Building & Design magazine is printed on a modern 4-colour offset press that is capable of high-resolution (200 line screen) reproduction. This superior printing process produces a finished product with increased sharpness and richer colour saturation than most typical trade publications. The trimmed page dimensions are 8.375" x 10.875" or 50p3 x 65p3, the magazine is saddle-stitched and printed on quality coated FSC certified stock.

Artwork Requirements

For optimum reproduction all digital colour files should be supplied in CMYK mode at 400 dpi resolution.

Greyscale artwork should be provided at 400 dpi, and line art should be at 800 dpi.

Accepted file formats are High-res PDF, EPS, TIFF or JPEG. All fonts should be embedded in the file.

Files should have no less than a .5" or 3p0 interior margin on all sides.

Upload Instructions

Upload your press ready files or your photos, logos and send your ad text in a word document to:

<http://dropbox.yousendit.com/donnabilley716744>

Or contact your sales representative and he will send you a link to his dropbox site.

Design Services

The Publisher has a free professional ad design service available for magazine and direct mail advertisers.
